MED-ED, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation (ANCC).

MED-ED, Inc. is an approved provider by the following State Boards of Nursing: Florida/FBN 50-126, Iowa/296, California/#CEPI0453.

If your profession is not listed, we suggest contacting your board to determine your continuing education requirements and ask about reciprocal approval. Many boards will approve this seminar based on the accreditation of the boards listed here.

Speaker

Mary Ann “Cammy” Christie, MSN, ACNP, CCRN-CMC-CSC, PCCN

Cammy is a nationally known speaker with over 35 years of critical care experience. She received her BSN and MSN with an advanced practice certification in adult health from Shands Teaching Hospital at the University of Florida. In 2000, Cammy completed a post-graduate course for her certification as an acute care nurse practitioner. She maintains her clinical skills through an active practice as an ACNP at the University of Florida, Division of Cardiothoracic Surgery.

Cammy has presented numerous CCRN® Reviews as well as critical care updates with an emphasis on the critical-thinking skills of the bedside practitioner. She is known for her in-depth knowledge of managing patients with complicated cardiovascular diseases. In addition to her busy lecturing schedule, Cammy is a content reviewer for several refereed nursing journals and has numerous publications in the area of critical care. As a critical care nurse practitioner, Cammy brings extensive knowledge and clinical practice skills to her lectures as well as providing bedside clinical pearls, allowing the learner to take bedside care to the next level.

For complete biography, please visit MedEdSeminars.net
MED-ED reserves the right to substitute an equally qualified speaker if necessary.

Course Overview

This three-day course is designed to provide critical care and progressive care nurses a review of AACN's core curriculum. The course combines central knowledge-based lectures so that nurses working in the PCU and ICU arenas will have a review of AACN's certification blueprint. The first day will provide the critical care provider with an essential review of nursing care and interventions designed for the ICU setting. The second day of this lecture series will combine both the critical care and the progressive care areas. Information essential to each will be presented in a combined method still complying with AACN's certification blueprint. The third day will be specifically for the progressive care provider and complete AACN's blueprint for system review. This review is not an introduction to the environment of the ICU or PCU, but a comprehensive update for the professional already in practice at the bedside and preparing for either or both of the certification examinations.

Program Learning Outcomes
This program prepares the learner to:

- Discuss and practice test-taking skills.
- Review critical anatomy, physiology and pathophysiology of each system.
- Discuss significant assessment and diagnostic findings relevant to the critical and/or progressive care environment.
- Discuss clinical presentation as well as specific patient management of commonly seen critical care conditions.
