

COVID-19 Testing Information

Community Hospital North campus medical offices

8103 Clearvista Parkway
Indianapolis, IN 46256

The tent is located in the parking lot between the 8101 and 8103 buildings on Clearvista Parkway. After you turn into the parking lot, please follow signs to the tent.

County Line Medical Pavilion

333 E. County Line Road
Ste B, Greenwood, IN
46143

The location is ½ mile west of the Greenwood Airport on the same side of the street (south).

Community Howard Regional Health campus

3548 S. Lafountain Street
Kokomo, IN 46902

The Annex is located on the southside of the Community Howard campus. Patients may enter off of S. Lafountain St. Please follow the signs to the white tent south of the Emergency Department.

Community Hospital East

1500 N. Ritter Avenue
Indianapolis, IN 46219

Corner of E. 16th St. and N. Ritter Ave. near outpatient surgery entrance

Testing tents are currently available in East, North and South Indianapolis and Kokomo on the Community Howard campus.

They are open Monday through Saturday with hours that vary by location. Please call 317.621.2727 for specific hours. Testing tents are not for the general public and are by appointment only; if you do not have a provider order for a test, you will not be able to be tested.

Testing requirements and instructions

1. Testing is available for Community patients age 6 months and older.
2. Patients MUST have an order for testing, placed electronically by their Community Health Network provider. For affiliated Community providers, please bring paper order/requisition and other documentation, including demographics and insurance information.
3. Once patients have an order for COVID testing, they may call 317-621-2727 for an appointment time at a drive-thru testing tent.
4. Before you drive to the test site, make sure you have your driver's license or state ID with you to verify your information.
5. If you are providing a saliva sample, do not eat, drink, smoke, chew gum, brush teeth or use mouthwash for 30 minutes prior to the test.
6. Please bring a tissue and water. With some collections (i.e., nose to back of throat), your nose may run a bit and the water helps the feeling subside.
7. When you arrive at the tent, someone will greet you wearing full gear of mask, gown and gloves. Because COVID-19 is spread in the air and by contact, we ask that you stay in the car for the test.
8. Your physician and team will receive the results and follow-up with you. Results may take 48-96 hours to come back.

Pre-operative Patients

We are screening patients for COVID-19 who are preparing for surgery, whether they are symptomatic or not, to keep all of our patients, families and staff safe. Therefore, pre-operative patients will need to complete a COVID-19 test prior to their surgery. Your surgery scheduling team will assist you with the order for the test and help you find a testing location. Many pre-operative patients are receiving saliva COVID-19 tests.
